Please understand my reasons for not speaking today. I am participating in the Day of Silence (DOS), a national youth movement bringing attention to the silence faced by lesbian, gay, bisexual and transgender people and their allies. My deliberate silence echoes that silence, which is caused by anti-LGBT bullying, name-calling and harassment. I believe that ending the silence is the first step toward building awareness and making a commitment to address these injustices. Think about the voices you are not hearing today.

**What are you going to do to end the Silence?**
